**Euphorbia bergeri**

**Sedum bergeri**

**Stapelia bergeriana**

This is a note by Alwin Berger (1871-1931) & his spouse Elise -- in the diary of Karl Herold ( -1938 in Berlin) who was the great-uncle of and in the possession of Michael Lange -- given to Chuck Staples by Michael Dec 2013 for a possible future publication. Alwin Berger was important to the succulent plant world as a researcher and a writer of a number of succulent plant books and describer of a number of generic names -- and describer of many species of succulent plants.
